frio – lost in old town. frio lost in old town [?]. frio lost in old town walkthrough

Great game with a lot of suspense <3. This game works naturally on my Windows Tablet. This game supports mouse and keyboard but also supports to play on touch screen PC. I was surprised at it. Obviously, It is much more fun than other room escape games.

Error&Disadvantages :

I think I have cleared my achievements now. And It is not applied. But maybe this is my wifi problem.

I played a mode with no ghosts, but I was shocked because the ghost appeared on the car.. A good scary game doesn't need the best graphics. And this game shows just that! Great game~!.

I can't start this game.

Each time I tried to start it, the computer reported an error. Then the system crashed. I must restart my computer. I tried three times and I don't think it's an accident.

This game seems trying to adjust the resolution ratio of my screen, but the program may need a little help.

Hope you can fix this bug quickly.
