Updated Review:

So I tried to see if my DLC was bugged or something because the A.I. wasn't working for this faction so I reinstalled the game with the dlcs and everything worked better and the A.I. was actually working and it is quite a lot of fun fighting them(requires the Airborne DLC).

So the Ostfront Veteranen DLC brings new unique vehicles, great and cheap infantry, the Puma family joins the battle, anti tank destroyers, and decent special units that is pretty nice for reinforcing the front. This faction is quite balanced when it comes to units and variety which I love so much especially with the tanks tab, there's 2 variants of the Panzer 3, 2 Panzer 4s, a Tiger, Panther, and a King Tiger! The only thing though is the last 3 are VERY EXPENSIVE, varying between 1,200 to 2,400 points. This dlc also just got a price cut just which is now \$10. If you'd like another faction for this game than I recommend buying this but just remember that you could buy other Men of War titles for the same price with more content for your money's worth.
